325.0 Human Services

IT Plan Version: B 2

### **Goals and Objectives**

**Goal:** 1 The purpose of the Information Management Division is to provide customer services relating to technology and information management to DHS staff so they have the technology and information they need.

| Obj | ectives  | Timeframe | Accomplishments/Status |
|-----|--|-----------|------------------------|
| 1   | Technology, (hardware, software, network availablity), services and information will be available 95% of the time for our customers who need it when they need it at agreed upon timeframes. | Ongoing   |                        |
| 2   | All technology solutions to business problems approved by executive management will be completed at agreed upon timeframes and within budget.  | Ongoing   |                        |
| 3   | 98% of our customers will rate all our customer service as good or excellent.  | Ongoing   |                        |

325.0 Human Services 240

#### 325.0 Human Services IT Plan Version: B 2 End Start **Activity** Date Date 99-01 01 - 0303-05 **Priority Activity Type** Food Stamps New Initiative 07/2001 06/2003 \$0 Large This project would move the last system (Food Stamps) out of the old technology (TECS) and IT PLAN ESTIMATED COST \$0 \$5,000,000 into the newer technology. This would provide counties with the major economic assistance **BASE BUDGET REQUEST** \$0 programs under the same system. \$5,000,000 OPTIONAL BUDGET REQUEST **BUDGET NONAPPROPRIATED \$0** Justification: Would eliminate duplicate entry between two seperate computer systems for the same clients. **Impact on other activities:** End Start **Activity** Date Date 99-01 01 - 0303-05 **Priority Activity Type Document Management** New Initiative 07/2001 06/2003 \$0 Large There is currently not a system to manage electronic documents. This document management IT PLAN ESTIMATED COST \$0 \$250,000 system would allow for retention periods to be established for electronic documents and increase BASE BUDGET REQUEST information availability. Electronic documents are subject to the same records retention policies \$250,000 OPTIONAL BUDGET REQUEST as paper documents. As more documents are created and stored electronically, the Department **BUDGET NONAPPROPRIATED** \$0 incurs increased storage costs due to documents not being retired in a timely manner. We are currently storing 7 times the information we were two years ago. At our current rate of growth we will exceed our capacity in the next biennium. We currently have 20 storage devices at approximately \$14,000 per device. If trends continue without a document management system we are looking at an expansion cost of \$280,000 to \$420,000 in the following biennium.

Justification:

The Department has vast amounts of information that is being stored, without any technology support on how to manage this information, such as retention values, purging, and ongoing storage. Without a system to perform this work, additional storage will need to be purchased.

Impact on other activities:
